Connecting funds with the right investors

With a ratio of 41% hedge fund managers and 45% investors and asset allocators attending Gaim, this year it will be even easier to connect with the right business prospects. Managers now have their own private meeting table to host investor meetings through-out the event and there are allocated time on the conference agenda for 38 half an hour One to One manager/investor meetings which means no risk of missing out on any of the sessions. Delegates can use the online/mobile meeting planner to profile their fund, search for investors by active strategy and schedule meetings up to 4 weeks before the event.

Hedge fund managers can also promote their funds in the Delegate QuickFire showcase and make initial connections during manager/investor speed networking.
