

Elementa Keeps Clean Sheet

Stockholm (HedgeNordic) - Newly launched multi strategy hedge fund Elementa is the only fund among the 151 Nordic funds that form the Nordic Hedge Index (NHX) to keep a clean sheet, only reporting positive monthly returns so far in 2015.

Statistics are a bit off set, the fund having launched only in March of this year and therefor no NAVs for the first two month were published.

Elementas portfolio manager, Marcus Wahlberg, was interviewed by HedgeNordic in May. The full interview in Swedish language can be read here: [interview Marcus Wahlberg](#)
