## Wide losses for Nordic hedge funds in September

Stockholm (HedgeNordic) – Nordic hedge funds lost an estimated 0.5~% in September with continued market turbulence weighing on performance. Year to date, the Nordic Hedge Index (NHX) index remains in positive territory; +2.1~%.

CTA strategies weathered the storm nicely during the month gaining an estimated 1.6 %. All other sub-indices posted losses with multi-strategy and fixed income funds recording the most significant declines.
