

New portfolio manager at Aktie-Ansvar

Stockholm (HedgeNordic) - With March 7 2016, Philip Wendt took over responsibilities as portfolio manager for three of Aktie-Ansvars hedge funds, Graal, Graal Aktiehedge and Graal Total.

Aktie-Ansvars CEO, Sina Mostafi comments the assignment: "Philip's deep knowledge of the market and extensive experience will contribute positively to the further development of the company. Philip has solid equity expertise and I am confident that he will complement our already strong management team."

Mostafi himself only assumed responsibilities as CEO at Aktie-Ansvar last October.

51 year old Wendt (*pictured*) most recently worked as manager and equity strategist at Länsförsäkringar for eight years. He was also responsible for the portfolios and investment proposals that advisors use in their recommendations to clients.

Aktie-Ansvar currently has a total of seven funds listed in the Nordic Hedge Index: Graal, Graal Aktiehedge, Graal Kvanthedge, Graal Offensiv, Graal Total, Graal Total 2xL and Graal Trendhedge.
