

Aktie-Ansvar adds another PM

Stockholm (HedgeNordic) - Having just recently added Philip Wendt to its team of portfolio managers, Aktie-Ansvar announces the hire of Maria Ljungqvist (*pictured*). Ljungqvist will be responsible for Avkastningsfonden as well as for the fixed income portfolios in Graal and Graal Aktiehedge, according to a press release.

Ljungqvist has a fixed income trading background with a focus on corporate bond mandates and was most recently with Alfred Berg.

In a comment Sina Mostafi, CEO of Aktie-Ansvar says:

- Maria's skill-set complements the competencies of the current team of portfolio managers in a very good way, while at the same time assuring a high degree of active management in the funds she will be responsible for. We have now laid the foundation for Aktie-Ansvar to enter into a new development phase.
