

Invitation: ESG Seminar, Stockholm February 14

Thomson Reuters welcomes you to this unique opportunity for asset and fund managers, senior pension fund executives and corporate governance specialists to learn more about the opportunities and risks with integrating Environmental, Social and Governance (ESG) issues into their practices.

Through the seminars we aim to bring clarity in the field of sustainable investing and diversification as well as discussing best practices and the latest trends in the ESG field. We will look at existing strategies and provide insight to the options available for investors and managers alike.

In this seminar we will be joined by Kommuninvest, Sweden's leading local government debt office, insurance company Folksam, managing one of Sweden's largest investment portfolios, and Bank of Åland, regional bank innovating the ESG space.

HedgeNordic together with NordSIP will be hosting a panel of hedge fund managers discussing the integration of ESG data into the investment process. Represented on the panel will be Swedish managers Brummer & Partners, Optimized Portfolio Management (OPM), and QQM Fund Management.
