

# HedgeNordic Industry Report 2017

Stockholm (HedgeNordic) - HedgeNordic is pleased to announce the publication of its annual industry report covering the latest trends in the Nordic hedge fund industry. This year, we found interesting parallels between hedge funds and sports. Analogies or real-world comparisons span over horse riding, boxing, running, football, yoga and fencing as well as life after the game, great sports clubs and of course, gold medals.

The report contains insightful interviews with Nordic equity long/short managers Alcur, Origo and Bodenholm, multinational players Eaton Vance and Lombard Odier, systematic managers Helsinki Capital Partners, alternative credit manager Asgard and many others.
