

# Rookie of the Year 2018: Qualified Funds

Stockholm (HedgeNordic) – Since 2015, one of the categories celebrated at the Nordic Hedge Award is for the most promising new launch among Nordic hedge funds. Funds will be considered as “Nordic Hedge Fund Rookie of the Year” have a track record of fewer than 15 months but have at least three monthly NAV preceding the year-end net asset value (NAV) of the respective fund. Funds must be listed in the Nordic Hedge Index and meet the criteria required for such listing. There are no minimum / maximum requirement for assets under management.

For the “2018 Rookie of the Year”, the following funds are qualified:

Calculo Evolution Fund	Asgard Fixed Income Risk Premia	Nordic Cross Credit Edge	Handelsbanken Hållbarhet Hedge Criteria
Danske Invest Fixed Income Global Value	Danske Invest Global Cross Asset Volatility	Adrigo Small & Midcap L/S	SEB Eureka Fixed Income Relative Value
Hamiltonian Global Credit Opportunity	Nordea 1 – Alpha 7 MA	Alcur Select	Nordic Cross Small Cap Edge
Innolab Capital Index	Yggdrasil Multi-Asset Fund	Coeli Altrua Macro	Coeli Absolute European Equity
Chelonia Market Neutral	Evli Factor Premia		

Unlike the other, regular categories where a quant model is used in combination with a jury board of representatives of asset owners and allocators, the Nordic hedge fund rookie of the year is determined by other fund managers, making this a prized peer award.

The jury for the Nordic hedge fund rookie of the year is put together of Søren Astrup (Formuepleje Asset Management), Stefan Roos (Origo Capital), Thomas Elofsson (Catella Fondörvaltning), Eyvind Holt (KLP) and last year’s Rookie of the Year, Daniel Pedersen (Moma Advisors/Asgard).
