

# Man Group Nordic Institutional Investor Breakfast

Stockholm (HedgeNordic) - On November 26, Man Group hosted its annual Nordic Institutional Investor Breakfast in Stockholm. Each year, Man Group brings a mix of investment professionals to share their most recent views, research, and projects with an invitation only-group of institutional investors and fellow professionals from across the Nordic financial industry.

HedgeNordic had the pleasure to attend the event and listen to Man Group's experts in the field of global macro, quantitative research and multi-asset investing. Otto Van Hemert, Head of Macro Research at Man AHL, Ed Fang, Deputy Director of Research at Man Numeric and Teun Draaisma (*pictured*), Portfolio Manager of the Multi-Asset offering at Man Solutions, held presentations on the following topics:

- 'No Super Humans' - Exploiting behavioural biases in global macro investing
- Fundamental Networks - How can we leverage the interconnected ecosystems
- The Next Investment Regime - What are the implications for your asset allocation?

Thank you for inviting HedgeNordic to this year's Nordic Institutional Investor Breakfast. We already look forward to next year's event.
