Qblue Balanced, registered with the Danish Financial Supervisory Authority – Finanstilsynet – as an alternative investment fund manager, was co-founded in 2018 by Bjarne Graven Larsen (*pictured*), former chief investment officer at Ontario Teachers’ Pension Plan and Danish pension fund ATP. Larsen co-founded Qblue Balanced with a six-member team mostly comprised of former investment professionals from ATP. Qblue Balanced launched Qblue Luxembourg in mid-2019 to harvest risk premia through an active, dynamic and systematic process. The market-neutral alternative risk

premia fund follows a rule-based, non-discretionary approach to harvest risk premia across several asset classes.
