

Best Nordic Fixed-Income Hedge Fund 2020

Stockholm (HedgeNordic) – The “fixed income” segment within the Nordic hedge fund industry has been in a very solid and healthy state in recent years. The number of active fixed-income hedge funds in the Nordics increased from 24 at the beginning of 2017 to 34 funds at the moment after 15 new funds have been launched and only five funds have closed down during that period. The “fixed income” category is the only strategy category in the Nordic Hedge Index with new launches outpacing closures since 2017. The aggregate absolute and risk-adjusted returns have been strong, too.

At 15:00 CET on Thursday, HedgeNordic announced the winners and runners-up in the “Best Nordic Fixed-Income Hedge Fund” category supported by SS&C EZE. The three best-ranked funds in this award category are:

Winner:

SEB Eureka Fixed Income Relative Value

Second Place:

Asgard Fixed Income Fund

Third Place:

Asgard Fixed Income Risk Premia

Many congratulations to the winning funds! And a warm thank you to the members of the jury board, all supporting partners – with a very special appreciation to SS&C EZE.
