

Best Nordic Fund of Hedge Funds 2020

Stockholm (HedgeNordic) - The number of active Nordic funds of hedge funds declined from 31 at the beginning of 2015 to 19 at the end of 2018, 11 at the end of 2019 and only eight funds at the moment. The trend of closures outpacing new launches, however, has not made the competition for the title of the “Best Nordic Fund of Hedge Funds” less intense. On the contrary, the survival of the fittest makes the competition even more fierce.

At 17:00 CET on Tuesday, HedgeNordic announced the winners and runners-up in the “Best Nordic Fund of Hedge Funds” category supported by RBC Investor & Treasury Services. The three best-ranked funds in this prestigious industry distinction are:

Winner:

Brummer Multi-Strategy

Second Place:

AIM Diversified Strategies Fund

Third Place:

Atlant Multi-Strategy

Many congratulations to the winning funds! And a warm thank you to the members of the jury board, all supporting partners - with a very special appreciation to RBC Investor & Treasury Services.
